

3. Enter a name for the account.

The dialog box is titled "ZoIPER Add new IAX account". It features a text input field labeled "Name" containing the text "Greg". Below the input field are two buttons: "OK" and "Cancel".

4. Enter the account details and click OK. See your PBX administrator for account details.

The "Options" dialog box shows a tree view on the left with "IAX accounts" selected. Under "IAX accounts", there is a sub-entry for "Greg" with a plus icon and "Add new IAX account". The main area is titled "IAX account options" and contains the following fields:

- Server Hostname/IP : hsw1.modernworks.ca
- Username : 2201
- Password : *****
- Caller ID Name : 2201
- Caller ID Number : 2201

At the bottom left, there is a checkbox labeled "Show advanced options" which is currently unchecked. At the bottom right, there are three buttons: "OK", "Cancel", and "Apply".
